Youth Violence Intervention Programme

Redthread empowers young people to thrive as they navigate the challenging transition to adulthood by integrating trauma-informed youth work into the health sector. Whether a young person has been the victim of a stabbing, is seeking support for anxiety, has suffered a sexual assault, or wants to find a new home beyond the reach of a gang, we support them to overcome the challenges they face through our dynamic youth work programmes.

Every year thousands of young people find themselves in hospital A&E departments as the victim of serious youth violence. Redthread's Youth Violence Intervention Programme embeds youth workers in hospitals to intervene with these young people. The teams meet the young patients as soon as they can: in the A&E waiting room, on the ward, or even in the resuscitation bay. We believe that this moment of intense crisis, when the young person is nursing a serious injury in the daunting environment of a busy hospital, often alone, can be a catalyst for pursuing positive change – a 'teachable moment'.

Our teams build rapport with the young people, mentor and advise them, and support them to make long-term positive plans to break away from cycles of violence and offending. Problems include exclusion from education, employment or training, a lack of stability in housing, mental health concerns, unstable relationships and reprimands due to criminal activity. Redthread capitalise on our partnerships to ensure long-term work and change is possible for each young person. The teams make well-judged referrals on their behalf and accompany them to initial meetings to ensure transition is smooth. This work disrupts the cycle that can too easily lead to devastated communities and an exhausted healthcare and justice system.

We have teams in three of London's four Major Trauma Centres and commission a service in the fourth. In 2018 we launched services in Queen's Medical Centre in Nottingham, in Queen Elizabeth and Heartlands Hospitals in Birmingham, and in Homerton Hospital in Hackney. We expanded our service to UCLH in early 2020, and have launched in Croydon University Hospital, University Hospital Lewisham and Queen Elizabeth Hospital, Woolwich this year during the pandemic.

King's Adolescent Outreach Service (KAOS)

On any day, across King's College Hospital sites, at least 20 adult beds are occupied by young people aged 16 to 24. These young people have specific medical, emotional, legal and social needs which we know from user feedback are not being met. The KAOS team help support the medical and surgical teams on adult wards to care for young people in an age appropriate way.

Outside of the hospital, we deliver The Social Switch Programme in partnership with Social Business Catch22- amongst other things, this programme trains frontline professionals to understand and address social media in their work with young people.

"I need this don't I, this is an opportunity for me; to be able to work with you, any of you, could change things for me. I'm ready for that. I'm in! You don't need to ask me again - I'm 100% on board, whatever I have to do. I'm doing it."

A young person's reaction to being introduced to the service

"I've seen first-hand how our hospitals provide a unique moment to engage with young people. Redthread have helped thousands of Londoners - and I'm proud to support their work."

Sadiq Khan, Mayor of London, June 2019

What do our Youth Intervention Practitioner team do?

Youth Intervention Practitioners use the principles and power of youth work in the setting of a busy emergency department. We meet young people who have experienced injury or trauma while they are in the hospital, and work alongside our clinical colleagues to offer them support at a time when they are feeling very vulnerable. Our first contact with the young person may be to offer them a drink, or to ring their parent, or to check they understand what's happening to them. When their immediate medical needs have been met, we will talk to them some more and explain how we can support them. We will do a safety plan with them before they leave the hospital.

If a young person chooses to engage with us, we will then work with them for eight to twelve weeks on a plan of action that's tailored to their needs. We work closely with the hospital safeguarding team every day and frequently have to escalate concerns. We contact any other agencies who know the young person so we're not duplicating their work, and often arrange to meet them with the young person. We regularly have to strongly advocate for young people, for example with housing agencies. We look for organisations who can work with them towards their longer-term goals and we do relational referrals, transferring the trust that young people have built with us.

We provide an intensive induction at the start of the role, ongoing training and CPD throughout your time at Redthread and fortnightly clinical supervision. Our Youth Intervention team have to be courageous and tenacious, and because ours is a short intervention, we don't always see first-hand the impact of our work. But we know from talking to the young people we work with that we make a huge difference.

Our Programme Coordinators, Youth Intervention Practitioners and Team Leaders are resilient, able to work calmly in a challenging environment with young people experiencing trauma, injury or exploitation. They have a good level of self-awareness, the ability to reflect on how the work is impacting them, and a willingness to engage in regular clinical supervision that helps them develop their practice and emotional literacy.

"That could have been the worst thing that happened in my life, but you made it one of the best."
